SEO HEALTH SCORE

Good

Fruth Custom Packaging

https://www.fruth.com

REPORT DATE	PAGES AUDITED	CRITICAL ISSUES	IMPROVEMENT OPPORTUNITIES	FULLY OPTIMIZED
August 31, 2026	48	16	18 of 48 pages	25 of 48 pages

SCORE HISTORY

Score note: The SEO Health Score deducts heavily for critical issues (missing titles, H1s, meta descriptions, image alt text) and applies a smaller deduction for pages with improvement opportunities such as schema markup, canonical tags, and content depth.

0

Pages Missing Title

0

Missing Meta Description

0

Pages Missing H1

16

Pages Without Schema

0

Pages w/ Missing Image Alt

QUICK WINS & RECOMMENDATIONS

Low effort

Medium impact

Rewrite meta descriptions on 6 pages

3 meta descriptions are too short to persuade clicks. 3 are too long and get truncated in search results.

Low effort

Medium impact

Add canonical tags to 2 pages

Canonical tags are a single line of code. They tell Google which version of a page to index and prevent duplicate content penalties.

Low effort

Medium impact

Fill in empty image alt text on 2 pages

Alt text is already in the code but blank. Adding keyword-relevant descriptions takes minutes and improves both accessibility and image search rankings.

Low effort

Medium impact

Fix multiple H1 tags on 1 page

Each page should have exactly one H1. Multiple H1s dilute the main topic signal Google uses to understand the page.

Medium effort

High impact

Add structured data (schema) to 16 pages

Schema markup helps Google display rich results (star ratings, FAQs, product details). Product and service pages especially benefit from this.

AUDIT SUMMARY

Overall SEO Health Score	91 / 100 — Good
Pages without structured data (schema)	16 pages affected
Pages with improvement opportunities (schema, word count, canonical)	18 of 48 pages
Fully optimized pages (no issues, no warnings)	25 of 48 pages

What this means: A score of 91/100 means your site has no critical SEO problems. Pages listed under "improvement opportunities" have advisory items — adding schema markup, increasing content length, or setting canonical tags — that can help rankings but are not broken elements.

FINDINGS BY PAGE (23 PAGES NEED ATTENTION)

/learning-center

LOW No JSON-LD schema found

LOW Meta description short (77 chars)

Short meta descriptions waste valuable space to attract clicks from search results.

LOW 1 image(s) have empty alt text

LOW No canonical tag

/learning-center/author/fruth-custom-packaging

LOW No JSON-LD schema found

LOW Meta description short (77 chars)

Short meta descriptions waste valuable space to attract clicks from search results.

LOW 1 image(s) have empty alt text

LOW No canonical tag

/products/barrier-films/cushion-packaging-barrier-film

LOW No JSON-LD schema found

MEDIUM Low word count (118 words)

Pages with very little content are harder for Google to rank.

/products/films/nylon-film

LOW No JSON-LD schema found

MEDIUM Low word count (145 words)

Pages with very little content are harder for Google to rank.

/products/bags/tamper-evident-bags

LOW No JSON-LD schema found

MEDIUM Low word count (86 words)

Pages with very little content are harder for Google to rank.

/

MEDIUM Multiple H1 tags (4)

Having more than one H1 dilutes the page focus signal for search engines.

/fruth-360

LOW Meta description long (171 chars, aim for 140-160)

Long meta descriptions get truncated in search results.

/products/films/anti-static-film

LOW Meta description long (171 chars, aim for 140-160)

Long meta descriptions get truncated in search results.

/learning-center/custom-medical-packaging-for-catheter-syringe-bags

LOW Meta description long (182 chars, aim for 140-160)

Long meta descriptions get truncated in search results.

`/products/barrier-films/mil-prf-131k-barrier-film`

MEDIUM Low word count (103 words)

Pages with very little content are harder for Google to rank.

`/products/bags/header-bags`

LOW Meta description short (95 chars)

Short meta descriptions waste valuable space to attract clicks from search results.

`/contact`

MEDIUM Low word count (26 words)

Pages with very little content are harder for Google to rank.
