SCORE HISTORY

Score note: The SEO Health Score deducts heavily for critical issues (missing titles, H1s, meta descriptions, image alt text) and applies a smaller deduction for pages with improvement opportunities such as schema markup, canonical tags, and content depth.

QUICK WINS & RECOMMENDATIONS

Low effort

Critical impact

Add H1 headings to 15 product pages

15 of 19 pages have no H1 tag at all. This is a critical signal for search engines — every page needs exactly one H1 that matches what buyers would search for.

Low effort

Medium impact

Rewrite meta descriptions on 5 pages

5 meta descriptions exceed 160 characters and get truncated in search results. Each should be a single compelling sentence under 155 characters.

Low effort

High impact

Shorten title tags on 3 pages

3 title tags exceed 65 characters and will be cut off in Google results. Prioritize the keyword at the start of the title, then the brand name.

Medium effort

High impact

Add Product schema to 15 pages

All 15 product pages lack structured data. Product schema tells Google exactly what each page sells, enabling rich results and stronger ranking signals for B2B equipment searches.

High effort

High impact

Expand thin product page content

9 pages have under 150 words. Adding specifications, use cases, compatible machines, and FAQs to each product page gives Google substantive content to rank — and gives buyers a reason to stay.

High effort

High impact

Start a technical blog / resource center

TecHouse has zero content marketing presence. A B2B equipment buyer researching "cold needle perforating vs. hot needle" or "in-line hole punching systems" should land on techhousecorp.com, not a competitor.

AUDIT SUMMARY

Overall SEO Health Score	71 / 100 — Needs Attention
Pages missing an H1 heading	15 of 19 pages
Pages without structured data (schema)	15 of 19 pages
Organic clicks (last 28 days)	5 clicks — 0 CTR on all keyword impressions
Pages with improvement opportunities	16 of 19 pages
Fully optimized pages	1 of 19 pages (homepage)
Blog / content marketing	None — no blog, no articles, no resource center
Score trend	55 → 66 → 66 → 71 (improving)

What this means: A score of 71/100 reflects a site with solid technical bones — all titles present, all image alts in place, canonical tags clean — but a pervasive missing H1 issue across 15 product pages and zero schema markup. These are both fixable in a single sprint. The deeper challenge is zero organic clicks despite 700+ monthly impressions: every keyword ranking between position 14 and 82, with no clicks, means searchers are seeing TecHouse in results but not clicking. Better H1s, longer content, and Product schema will directly address this.

FINDINGS BY PAGE (18 PAGES NEED ATTENTION)

/products/round-bottom-bag-sealer

CRITICAL Page has no main heading (H1)

The H1 tells search engines what the page is about. Every page should have exactly one.

LOW No JSON-LD schema found

LOW Meta description long (182 chars, aim for 140–160)

Long meta descriptions get truncated in search results.

MEDIUM Low word count (134 words)

Pages with very little content are harder for Google to rank.

/products

CRITICAL Page has no main heading (H1)

The H1 tells search engines what the page is about. Every page should have exactly one.

LOW No JSON-LD schema found

LOW Meta description long (171 chars, aim for 140–160)

Long meta descriptions get truncated in search results.

/products/in-line-hole-punching-system

CRITICAL Page has no main heading (H1)

The H1 tells search engines what the page is about. Every page should have exactly one.

LOW No JSON-LD schema found

MEDIUM Low word count (149 words)

Pages with very little content are harder for Google to rank.

/products/unwinder-and-folder

CRITICAL Page has no main heading (H1)

The H1 tells search engines what the page is about. Every page should have exactly one.

LOW No JSON-LD schema found

LOW Meta description long (169 chars, aim for 140–160)

Long meta descriptions get truncated in search results.

/products/in-line-hole-punching-system-0

CRITICAL Page has no main heading (H1)

The H1 tells search engines what the page is about. Every page should have exactly one.

LOW No JSON-LD schema found

MEDIUM Low word count (140 words)

Pages with very little content are harder for Google to rank.

/products/web-edges-dual-lip-folder

CRITICAL Page has no main heading (H1)

The H1 tells search engines what the page is about. Every page should have exactly one.

LOW No JSON-LD schema found

LOW Meta description long (171 chars, aim for 140–160)

Long meta descriptions get truncated in search results.

/products/wicket-hole-punching-unit

CRITICAL Page has no main heading (H1)

The H1 tells search engines what the page is about. Every page should have exactly one.

LOW No JSON-LD schema found

MEDIUM Low word count (123 words)

Pages with very little content are harder for Google to rank.

/products/web-cleaner

CRITICAL Page has no main heading (H1)

The H1 tells search engines what the page is about. Every page should have exactly one.

LOW No JSON-LD schema found

MEDIUM Low word count (124 words)

Pages with very little content are harder for Google to rank.

/about

CRITICAL Page has no main heading (H1)

The H1 tells search engines what the page is about. Every page should have exactly one.

LOW No JSON-LD schema found

LOW Meta description long (170 chars, aim for 140–160)

Long meta descriptions get truncated in search results.

/products/hanger-hole-punch

CRITICAL Page has no main heading (H1)

The H1 tells search engines what the page is about. Every page should have exactly one.

LOW No JSON-LD schema found

MEDIUM Low word count (128 words)

Pages with very little content are harder for Google to rank.

/products/off-line-wicket-welding-pins

CRITICAL Page has no main heading (H1)

The H1 tells search engines what the page is about. Every page should have exactly one.

LOW No JSON-LD schema found

MEDIUM Low word count (130 words)

Pages with very little content are harder for Google to rank.

/contact-us

CRITICAL Page has no main heading (H1)

The H1 tells search engines what the page is about. Every page should have exactly one.

LOW No JSON-LD schema found

MEDIUM Low word count (47 words)

Pages with very little content are harder for Google to rank.

/products/cold-needle-perforator

CRITICAL Page has no main heading (H1)

The H1 tells search engines what the page is about. Every page should have exactly one.

LOW No JSON-LD schema found

/products/rotary-serrator

CRITICAL Page has no main heading (H1)

The H1 tells search engines what the page is about. Every page should have exactly one.

LOW No JSON-LD schema found

/products/taper-bag-manufacturing-attachment

CRITICAL Page has no main heading (H1)

The H1 tells search engines what the page is about. Every page should have exactly one.

MEDIUM Title too long (70 chars, aim for 50–65)

Long titles get cut off in search results.

/products/handle-bag-cutout

LOW No JSON-LD schema found

MEDIUM Low word count (8 words)

This page has almost no content. It needs a full product description to rank.

/products/zipper-sealing-system

MEDIUM Title too long (66 chars, aim for 50–65)

Long titles get cut off in search results. Aim for 50–65 characters.

/products/roller-header-sealer

MEDIUM Title too long (70 chars, aim for 50–65)

Long titles get cut off in search results. Aim for 50–65 characters.
