THERAPIST

Erin Zarlino, LPCC

BASELINE SCORE — FIRST AUDIT

47

Sep 1, 2026 — Baseline

Score note: A score of 47/100 (Critical) reflects the complete absence of meta descriptions and schema markup across all 6 pages, two title tag failures, and an NAP inconsistency. These are all fixable. As a YMYL mental health site, E-E-A-T signals must be strengthened alongside technical fixes.

2 Bad/Missing Title Tags	6 Missing Meta Descriptions	6 Pages With H1	6 Pages Without Schema
2 Thin Content Pages	1 URL Typo	0 Fully Optimized Pages	6 Total Pages Audited

AUDIT SUMMARY

Overall SEO Health Score	47 / 100 — Critical
Meta descriptions	0 of 6 pages — all missing
Schema / structured data	0 of 6 pages — all missing
H1 headings	6 of 6 pages — all present
Title tag issues	EMDR page: brand name only (no keywords) · Contact page: "Healing Starts Here"
NAP inconsistency	Homepage title says "Columbus Ohio" — address is Dublin OH
URL error	/insurancesandfeees — typo (three e's) needs 301 redirect
Content depth	Perinatal: ~375 words · Childhood trauma: ~675 words — both need expansion
E-E-A-T signals	No author/bio page · LPCC credential not featured in schema · No reviews visible
Blog / content marketing	None — significant missed ranking opportunity
Strengths	EMDR page: 2,200 words + excellent H1 · Insurance transparency · Psychology Today backlink

What this means: Wandering Free Counseling has a solid foundation — real services, an EMDR-certified therapist, insurance coverage, and transparent pricing. The score of 47 is entirely about fixable on-page gaps, not structural problems. Writing 6 meta descriptions, fixing 2 title tags, and adding schema markup to the homepage could push this above 70 in a single sprint. The deeper opportunity is E-E-A-T: Erin has genuine lived experience (pregnancy loss, 3 kids) and professional credentials that need to be surfaced in an About page, schema, and content — this is what builds long-term authority in the YMYL mental health niche.

QUICK WINS & RECOMMENDATIONS

Low effort

Critical impact

Write meta descriptions for all 6 pages

Zero pages have meta descriptions — this directly affects click-through rate in search results. Each should be under 155 characters and include the location (Dublin / Columbus, Ohio) and primary service.

Low effort

Critical impact

Fix EMDR page title tag

Currently: "Wandering Free Counseling, LLC" — no keywords at all. Should be: "EMDR Therapy + Intensives Columbus Ohio | Wandering Free Counseling" — the H1 is already perfect; the title just needs to match it.

Low effort

Critical impact

Fix Contact page title tag

Currently: "Healing Starts Here" — a tagline, not a title tag. Should be: "Contact Wandering Free Counseling | Dublin, OH Trauma Therapist" — includes location and identity.

Low effort

High impact

Fix Columbus vs. Dublin inconsistency

Homepage title says "Columbus Ohio" but the office is in Dublin, OH. Update homepage title to "Dublin Ohio" and verify the Google Business Profile uses the same address. NAP consistency is a local SEO ranking factor.

Low effort

High impact

Fix URL typo on Insurance page

/insurancesandfees (three e's) should be /insurance-and-fees. Set up a 301 redirect from the old URL to the new one. The clean URL is also easier to share with prospective clients.

Medium effort

Critical impact

Add LocalBusiness + Person schema to homepage

No structured data exists anywhere on the site. Homepage schema (LocalBusiness, MentalHealthBusiness, Person) is the highest-priority schema add — it powers local pack eligibility and knowledge panel data. Full JSON-LD below.

Medium effort

High impact

Create a dedicated Meet Erin page

"Meet Erin Zarlino, LPCC" in the nav currently links to the homepage — a wasted E-E-A-T opportunity. A /meet-erin page with bio, LPCC credential, EMDRIA certification, personal statement, and Person schema is critical for a YMYL site.

High effort

High impact

Expand perinatal + childhood trauma pages

Perinatal: ~375 words (target 800+). Childhood trauma: ~675 words (target 1,000+). Expand with: conditions treated in depth, what a session looks like, FAQs, and a closing CTA. Erin's personal experience with pregnancy loss is a powerful differentiator — use it.

E-E-A-T ASSESSMENT (YMYL — MENTAL HEALTH)

Mental health therapy is a YMYL (Your Money or Your Life) category. Google applies extra scrutiny to E-E-A-T (Experience, Expertise, Authoritativeness, Trustworthiness) for sites in this space. Every signal below matters for ranking.

LPCC Credential

Mentioned in nav — not in schema or H1

EMDR Certification

Referenced in FAQ — not featured prominently

Author / Bio Page

Missing — nav link goes to homepage

Physical Address

Present on multiple pages

Schema Markup

Missing on all 6 pages

Google Reviews

Unknown — GBP status not confirmed

Psychology Today

Profile exists — authoritative backlink

Personal Experience

Perinatal page mentions pregnancy loss — powerful but underused

FINDINGS BY PAGE

/ – Homepage

CRITICAL No meta description

Recommended: "EMDR therapy and trauma counseling in Dublin, Ohio. Erin Zarlino, LPCC specializes in childhood trauma, perinatal trauma, and EMDR intensives. Accepting Medical Mutual, Aetna, UHC and more."

CRITICAL No schema markup

Homepage needs LocalBusiness, MentalHealthBusiness, Person, and WebSite schema. Full JSON-LD provided below.

HIGH H1 is brand name only — not keyword-rich

H1: "Wandering Free Counseling, LLC" misses the opportunity. Consider: "Trauma Therapist in Dublin, Ohio — EMDR & Counseling"

HIGH Title says "Columbus Ohio" — address is Dublin, OH

NAP inconsistency can hurt local search rankings. Update title to "Dublin Ohio" and confirm Google Business Profile matches.

/emdr – EMDR Therapy + Intensives

CRITICAL Title tag is just the brand name — no keywords

Title: "Wandering Free Counseling, LLC" — zero keywords. The H1 ("EMDR therapy + EMDR intensives for men and women in Columbus, Ohio") is excellent — the title needs to match. Recommended: "EMDR Therapy + Intensives Columbus Ohio | Wandering Free Counseling"

CRITICAL No meta description

Recommended: "EMDR therapy and intensive sessions in Columbus/Dublin, Ohio. Treat trauma, anxiety, depression, and PTSD faster with 90-minute, 3-hour, or 6-hour EMDR intensives. Insurance accepted."

MEDIUM No schema markup

Add Service schema with name, description, areaServed, and provider. EMDR intensive pricing (\$300/\$600/\$1,200) could be expressed as Offer schema.

LOW Strong content — ~2,200 words

This is the best page on the site. H1 is excellent, content is detailed, FAQs are present, pricing is listed. Only the title tag and meta description need fixing.

/childhoodtrauma – Childhood Trauma Therapy

CRITICAL No meta description

Recommended: "Therapy for childhood wounds and complex trauma in Columbus, Ohio. Erin Zarlino, LPCC uses EMDR to help adults heal from abuse, neglect, and early trauma. In-person and virtual."

MEDIUM Thin content (~675 words)

Target 1,000+ words. Expand the FAQ section, add "Signs you may benefit," add a closing CTA with the contact phone number.

MEDIUM No schema markup

Add Service schema. Title and H1 are both good ("Therapy For Childhood Wounds Columbus, OH").

/perinatal-trauma – Perinatal Trauma Therapy

CRITICAL No meta description

Recommended: "Perinatal trauma therapy in Dublin, Ohio. Specializing in birth trauma, pregnancy loss, NICU experiences, and postpartum anxiety and depression. EMDR-certified therapist."

CRITICAL Thin content (~375 words)

This page needs significant expansion to 800+ words. The personal note ("I have experienced a pregnancy loss as well") is a powerful E-E-A-T signal — expand it into a full paragraph. Add: types of perinatal trauma, what sessions look like, what clients can expect, expanded FAQ.

MEDIUM No schema markup

Add Service schema. Title and H1 are both strong ("Perinatal Trauma Therapy Columbus, OH").

LOW Some images missing alt text

Add descriptive alt text: e.g. "Erin Zarlino, LPCC — perinatal trauma therapist in Dublin Ohio"

`/insurancesandfees` — Insurance & Fees

CRITICAL URL has typo — three e's in "fees"

Create a clean URL `/insurance-and-fees` and set a 301 redirect from the typo URL. This is a shareable page that clients will reference — a typo URL damages credibility.

CRITICAL No meta description

Recommended: "Wandering Free Counseling accepts Medical Mutual, Aetna, UHC, Tri-Care East, and EAPs. Session rates from \$125–\$165. Good Faith Estimates available."

MEDIUM Title and H1 missing location and brand

Title: "Insurances and Fees" — no location, no brand. Recommended: "Insurance & Fees | Wandering Free Counseling — Dublin, Ohio"

LOW Content quality is good

Complete fee schedule, insurance list, payment methods, Good Faith Estimate notice. This is a strong trust page — just needs the technical fixes.

`/contactme` — Contact

CRITICAL Title tag is a tagline, not a keyword

Title appears to be "Healing Starts Here" — meaningful as a tagline but invisible to search engines. Recommended: "Contact Wandering Free Counseling | Dublin, OH Trauma Therapist"

CRITICAL No meta description

Recommended: "Contact Erin Zarlino, LPCC at Wandering Free Counseling in Dublin, Ohio. Call or text 614-881-2439. Office at 5995 Wilcox Place Suite D, Dublin OH 43016."

MEDIUM No ContactPage or LocalBusiness schema

The contact page has complete NAP (name, address, phone, hours) — this is the ideal place for ContactPage + LocalBusiness schema.

LOW Content is strong — complete NAP + hours + directions

Office hours, address, phone, fax, email, and location description (near Dublin Methodist Hospital) all present. Good foundation.

RECOMMENDED SCHEMA — HOMEPAGE JSON-LD

Copy this JSON-LD block into the <head> of the homepage. This adds LocalBusiness, MentalHealthBusiness, Person, and WebSite schema — covering all three high-priority entity types.
