

New Tower (not in the database) Help? (Middle of Project Information page.)

**Project Type**  
New Tower ?

**Application Processing Fee**

**Tower Owner Site ID or Unique Name**  
Joe Buck 22 View/Edit

**Project Type** -- Any project, new tower, colocation, or modification can start this process if the Tower Owner (not carriers) site id or unique name entered is not in the Jurisdiction's database. Once this process is complete, the Application Processing Fee; should accurately reflect the type of project and any additional information to complete the entire process.

**Upon approval of this project, this tower record will be locked.**

**Then click View/Edit button**, creating the following pop-ups:

**Tower Site Lookup** -- Read the message, then click OK to proceed. (Not an option.)

**Tower Search** -- Enter the site coordinates covered by this application process. Use the format you prefer; Degrees, Minutes, Seconds as shown in the default or Decimal Degrees (by clicking the Dec Deg button.)

**Search Results** -- If the search finds a tower in "Ordinance defined" parameters, it/they will appear here. The towers that appear may be the same site you want, but the coordinates used by the initial applicant were different. Please Always use coordinates in the format provided by the Tower Owner (not the carrier.) Follow the instructions on the results page. Select a tower offered or not, then proceed with **Add Tower**.

**Search Tower Found** -- If the search does find a tower within the prescribed distance, you may select it (if it is the right site or you choose to use it, as defined.) If you decide not to use the found location, click.

**Add Tower** and proceed to the Tower Site Database Form (yellow page); that page has its Help page/instructions.

**Tower Site Lookup**

An existing tower with this tower site ID was not found. You must enter the latitude and longitude coordinates for this tower so that a list of possible tower candidates can be found within 1,000 feet of the entered coordinates.

Please click on the 'Ok' button to continue.
