Color Legends

If all else fails Help is here.

Overall Shot	Mini Shot	Proj ID	Description	Application Fee	Approved Application Fee	New Wireless Facility/Tower	Reg'd Forms to Complete Application	Eligible Facility Color or Modif	Construction Complete Date
60	P	10114new Demo	test	\$0.00					
150	P	10111new Demo	Verizon Test Tower New Tower Project. Updated - melpatcms@gmail.com	\$17500.00					
25	C	10079new Demo	Star Lake - To construct a 190' telecommunication tower as awarded by the New Mexico Broadband fund to provide cellular service in the area.	\$17500.00					
13	C	10071mod Demo	TOWER WORK: REMOVE (3) ANTENNAS, REMOVE (4) RRUS, REMOVE (E) MOUNTS, RELOCATE (1) MICROWAVE, INSTALL (6) ANTENNAS, INSTALL (6) RRUS, INSTALL (3) SECTOR FRAME MOUNTS (PER INFINGY MOUNT ANALYSIS REPORT DATED 04/13/2021), INSTALL (3) 6X12 HCS LANG 80M CABLE GROUND WORK: REMOVE (2) EQUIPMENT CABINETS, INSTALL (1) 8160 ENCLOSURE, INSTALL (1) 8160 BATTERY CABINET, INSTALL (1) RBS6601	\$8000.00					
0	C	10068mod Demo	Install on an existing Cell Tower: New 3ft dish at 75ft, (2) New ODUs, (2) New CNT-400, (2) New Fiber	\$6500.00					
66	C	10067mod Demo	Perform structural modifications. Installing for AT&T First Net: Antenna Array, Equipment cabinet and generator on a steel platform, propane tank, and a new overhead 200 amp electric service. Installing for AT&T First Net: Antenna Array, Equipment cabinet and generator on a steel platform, propane tank, and a new overhead 200 amp electric service. (1) 2ft MW with (4) Radios/Lines at 92ft	\$8000.00					
		10031mod Demo	To modify an existing wireless communications facility. Sheet T-1 of the plans has a detailed project description.	\$8000.00					

Project Status Screen – This shows the status of any project in the application process.

Color legends are the key. It is essential to know: 1) An Agent sees only projects created by that Agent, 2) A Jurisdiction & its Analysts (person reviewing applications) see only its projects based on the Filter setting at the top of the screen.

Components – These are where the Agent provides information related to each specific project. When the Agent defines the type of project in the Project Information Component (Proj ID column), and the Jurisdiction's Analysts approve the Project Description. Several actions happen:

- Project Description (Project ID, Type Project, Jurisdiction) turns Orange. It shows the project invoice sent to the Agent.
- Application fees are defined; initially shown as Red.
- Required components that vary by the defined & approved Project Description Component are shown in Grey.
- Required components are restricted from access until fees are paid.

AMP (WTS's Application Management Platform.) The entire process is interactive between the Agent submitting a project and the Jurisdiction's Analysts. This same format, within each component, describes interactions.

Should you have difficulties or unexpected results, do not hesitate to contact the Jurisdiction's Representative. The Analyst introductions occur at the outset of the process.
