

AI-Enabled Knowledge Base Project Plan

Recommendations, Comparison, and Roadmap

Project Goals

- Create an AMP-specific knowledge base hosted in a secure, online content management system (CMS)
 - Content serves as "single source of truth" to develop any desired documentation
 - WordPress CMS is recommended
- Scalable, easy-to-manage, and user-friendly solution
- Enable AI-driven chatbot, task-specific procedures, and training videos
- Deploy a simple Learning Management System (LMS) experience for different levels of training or user roles

Phased Project Plan

- **Phase 1:** Foundation – CMS setup, theme install, KB structure
- **Phase 2:** Content Development – standards, first batch of docs
- **Phase 3:** AI & Chatbot Integration – train AI, deploy chatbot
- **Phase 4:** Training & Video – create walkthroughs, add LMS
- **Phase 5:** Optimization – analytics, continuous improvements

Research Results:

Lots of Viable Options for CMS, Themes, Integrations for AI & Training

CMS & Themes

- WordPress – flexible, cost-effective, plugin-rich
- KnowAll + Heroic KB – turnkey knowledge base with AI readiness
- Docly – modern documentation theme, flexible and LMS-friendly
- HelpGuru – simple and clean KB solution
- Standalone KB plugins (Heroic KB, BetterDocs, etc.) – add to a WordPress site

AI & Training Integrations

- AI / Chatbot options: Chatbase, BotPress, Heroic KB AI
- Video walkthroughs: Loom, Guidde (embed in KB)
- LMS options: LearnDash, LifterLMS for training modules
- Analytics: built-in (KnowAll) or plugins for search insights

Decision Matrix

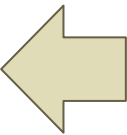

Criteria	Weight	KnowAll + Heroic KB	Docly	HelpGuru	Standalone Plugin
AI / Chatbot readiness	30%	5	3	2	4
Ease of setup & launch	20%	5	4	4	3
Extensibility (training/video)	15%	4	5	3	5
Analytics / insights	15%	5	3	2	3
Cost / licensing	20%	3	4	4	5

Results:

- Heroic KB: 4.45 / 5 Best Overall (turnkey, AI-ready, polished)
- Standalone KB Plugin: 4.0 / 5.0 (Flexible, budget-friendly)
- Docly: 3.7 / 5.0 (Design flexibility, training integrations)
- HelpGuru: 2.95 / 5.0 (Simpler, less AI / training support)

Recommendations:

- If priority is AI + fast setup → **KnowAll + Heroic KB**
- If priority is training/video + flexibility → Docly + AI integration
- If adding KB to existing WordPress site → Standalone KB plugin
- HelpGuru less suitable for advanced AI/training needs

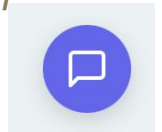

Demo Sites for Proof of Concept

In Conclusion:

The KnowAll + Heroic KB path gives us a strong out-of-the-box platform with analytics and a semi-built-in AI assistant. It reduces the friction of integrating core KB → AI interaction.
