PAGES AUDITED

36

CRITICAL
ISSUES

17

IMPROVEMENT
OPPORTUNITIES

**36 of 36
pages**

FULLY
OPTIMIZED

**0 of 36
pages**

Score note: The SEO Health Score deducts heavily for critical issues (missing titles, H1s, meta descriptions, image alt text) and applies a smaller deduction for pages with improvement opportunities such as schema markup, canonical tags, and content depth.

0 Pages Missing Title	0 Missing Meta Description	17 Pages Missing H1	0 Pages Without Schema
0 Pages w/ Missing Image Alt	0 Missing Canonical Tag	0 Fully Healthy Pages	36 Total Pages Audited

QUICK WINS & RECOMMENDATIONS

Low effort Medium impact Fill in empty image alt text on 36 pages Alt text is already in the code but blank. Adding keyword-relevant descriptions takes minutes and improves both accessibility and image search rankings.	Low effort Medium impact Fix multiple H1 tags on 9 pages Each page should have exactly one H1. Multiple H1s dilute the main topic signal Google uses to understand the page.
Low effort High impact Optimize title tag length on 3 pages 2 titles are under 30 characters (missing keyword opportunities). 1 titles exceed 65 characters and will be cut off in search results.	Low effort Medium impact Rewrite meta descriptions on 1 page 1 meta descriptions are too short to persuade clicks.
High effort High impact Expand thin content on 1 page Pages under 150 words give Google very little to rank. Adding descriptive copy, FAQs, or specifications strengthens these pages significantly.	

AUDIT SUMMARY

Overall SEO Health Score	81 / 100 — Needs Improvement
Pages missing an H1 heading	17 pages affected
Pages with improvement opportunities (schema, word count, canonical)	36 of 36 pages
Fully optimized pages (no issues, no warnings)	0 of 36 pages

What this means: A score of 81/100 means your site has no critical SEO problems. Pages listed under "improvement opportunities" have advisory items — adding schema markup, increasing content length, or setting canonical tags — that can help rankings but are not broken elements.

FINDINGS BY PAGE (36 PAGES NEED ATTENTION)

/lawn-care-services-csra

CRITICAL Page has no main heading (H1)

The H1 tells search engines what the page is about. Every page should have exactly one.

MEDIUM Title too long (68 chars, aim for 50-65)

Long titles get cut off in search results. Aim for 50-65 characters.

LOW 14 image(s) have empty alt text

/lawn-care-for-csra-lawns1

CRITICAL Page has no main heading (H1)

The H1 tells search engines what the page is about. Every page should have exactly one.

MEDIUM Title too short (24 chars)

Short titles miss keyword opportunities. Aim for 50-65 characters.

LOW 14 image(s) have empty alt text

/gallery

CRITICAL Page has no main heading (H1)

The H1 tells search engines what the page is about. Every page should have exactly one.

LOW 17 image(s) have empty alt text

MEDIUM Low word count (138 words)

Pages with very little content are harder for Google to rank.

/deals

CRITICAL Page has no main heading (H1)

The H1 tells search engines what the page is about. Every page should have exactly one.

LOW 9 image(s) have empty alt text

/weed-control-fertilization-for-csra-lawns-thank-you
